

Tiago Martins

AI & Gameplay Programmer
Behaviour & Systems

Portugal, Algarve . 932573922 . tiago_vicente_martins@eticalgarve.com . <https://www.linkedin.com/in/tiago-martins-225424310/>

Summary

- I am a programmer focus on AI and Gameplay on games. Hands on experience implementing scalable FSM, utility based, BT and Director AI systems.
- Looking for an AI or gameplay intership.

Skills

- AI and Gameplay Programming
- AI behavior systems, decision-making logic
- AI systems - FSM, Utility AI, Behavior Trees, Director.
- Programming - C# (Unity), C++ (Unreal)
- Java (Android Studio and NetBeans),
- C (Geany)

Projects

Nexus Of Warriors - AI & Gameplay programmer (Solo)

First Year Final Project - Third person medieval fighting game

- Designed and implemented fighting gameplay mechanics and AI behavior logic.
- AI built using FSM, event driven AI behaviour system
- Implemented animations and combat logic scalable system structure

Satan's miracle - AI programmer

First Person Horror Game

- Built a scalable structure to dynamically adjust enemy behavior and game difficulty over time using Director AI.
- Implemented utility-based AI using weighted probabilistic scoring, allowing enemies to remain unpredictable while favoring high-utility actions at higher difficulty.
- Designed event-driven AI reactions to crowd-control effects, temporarily overriding decision logic and behavior execution.

Professional Experience

IT Support Technician | May 2023 - Jul 2023 & May 2024 - Jul 2024

Boavista Golf and Spa

- Worked closely with a team to diagnose and resolve technical issues.
- Researched and applied solutions under time and operational constraints.
- Daily support with IT operations in a production environment.
